

# CIT CURRICULUM TRAIN-THE-TRAINER

## 4-DAY, IN-PERSON COURSE

### Benefits of the Course

Whether your CIT program is brand new or simply looking for ways to improve, our CIT Curriculum Train-the-Trainer has something for you. Learn how to conduct the week-long CIT training from master instructors and graduate confident that you can deliver the material effectively. Attendees will also receive all the materials of a national curriculum. You'll have everything you need to design and conduct the course in your community, including PowerPoint slides, instructor guide, handouts and more!

Upon successful completion of the course, you will be certified as a CIT coordinator (see below) and receive the benefits associated with that certification as well as receive a certificate of completion for the train-the-trainer course.

The course is appropriate for all CIT coordinators who are responsible for conducting the 40-hour CIT training for law enforcement. Class size will be limited to 20 students. We strongly encourage representatives from both mental health and law enforcement to attend from each locality.

### Course Topics

- Preparing for the training week
- Developing and preparing your community instructors
- Selecting and preparing effective site-visits
- Developing and preparing interactive panels
- How to use the instructor guide
- A review of each module including relevant instructional points
- How to conduct de-escalation training
- How to conduct scenario-based training
- Student-instructor presentations and evaluations

### Pre-course Requirement

CIT Coordinator Certification through CIT International is a pre-requisite for this course. If necessary, we will offer combined courses or make arrangements for you to take our online CIT Coordinator Certification course.
